

## Self-Sufficiency Guidelines

1. Determine your family size. A family, for our purposes, lives in a single residence which means:

- married couple and dependent children
- parent / guardian and dependent children
- married couple
- if you are age 18-25, and are being claimed on your parent's taxes, your family size counts as them, you, and any other of their dependents

Family of 1:

- If you are not married, have no dependents, and your parents do not claim you on their taxes
- If you have a documented disability and your family is over income
- If you are age 18-25, are being claimed on your parent's taxes but do not live at home and maintain a permanent residency in the WIOA area
- If you are 26 or older and living at home with parents you would be considered a family of 1

2. Use the chart below, to locate the **6-month total household income** by using your family size and county. **Household income must be under the noted amount to be eligible for WSGM's services.**

### Self-Sufficiency Income Guidelines For Adult & Dislocated Worker

Program Years 2022 - 2023  
Effective May 5, 2023
